

SIMPLY POWERFUL PROCESS AUTOMATION

Wrk makes automation *Super* simple.

Get access to the power of bots, APIs, RPA, and a global workforce in one easy-to-use platform.

How do we get all this technology into our Automated Wrkflows?

Each Wrkflow is powered by the optimal mix of bots, APIs, RPA, and our own skilled workers, matching the right tech for each task.

Get started today in 3 easy steps.

Step 1

Choose from an existing Wrkflow Template, or we'll build you one from scratch.

Step 2

Your Wrkflow is customized to reflect your current process and existing software.

Step 3

Launch your Wrkflow, and start receiving quality results *the same day*.

Automation doesn't need to be complicated, to be *powerful*.

Our 'Hybrid Automation' process happens automatically behind the scenes, so you get none of the headaches and all the results.

Why go with Wrk?

- 1 You have manual processes that desperately needs to be optimized.
- 2 You want the power of RPA, but don't have the resources or budget it demands.
- 3 You need a solution now, not in 6 months.

| | Integration Platforms | Robotic Process Automation | Wrk Process Automation |
|----------------------------|--|--|--|
| Speed to Launch |  Fast <i>Hours or Days</i> <i>Minimal to No support from IT Required</i> |  Slow <i>Several Months</i> <i>Organization-wide Cooperation</i> |  Fast <i>Hours or Days</i> <i>Minimal to No support from IT Required</i> |
| Complexity |  Simple <i>Drag-n-drop connectors</i> |  Very Complex <i>Digitize and train entire process</i> |  Simple <i>Drag-n-drop entire process</i> |
| Functionality |  Limited <i>Automates processes that can be delivered by public APIs</i> |  Powerful <i>Automates processes that can be delivered by robots</i> |  Very Powerful <i>Automates any type of process</i> |
| Flexibility |  Very Flexible <i>Make changes in real-time</i> |  Inflexible <i>Have to reconfigure robots every time your process changes</i> |  Very Flexible <i>Make changes in real-time</i> |
| Cost |  Low & Fixed <i>\$5k-\$50k annually</i> |  Very High <i>\$100k to millions annually</i> |  Low & Variable <i>Transactional cost starting \$1k</i> |
| % of Work Automated |  10%-40% <i>APIs deliver some automation but rest of the process remains manual</i> |  60%-80% <i>Majority of process is automated, remaining work routed to internal employees</i> |  90%-100% <i>Entire process can be automated including routing work to our community of Human Workers</i> |
